EMPOWERING HEALTH...

EMPOWERING LIVES....

Complete Cure... Confident Recovery...

MARBOXCELTM 50

Marbofloxacin Tablets 50 mg

Advanced Third Generation Fluoroquinolone
Antibiotic For Veterinary Use

- » Inhibits DNA gyrase and Topoisomerase IV, disrupting bacterial DNA synthesis
- » Blocks DNA replication, leading to rapid bacterial cell death
- » Broad-spectrum activity against Gram-positive and Gram-negative pathogens, including: *E. coli*, *Pasteurella* spp., *Staphylococcus* spp., *Proteus* spp., *Klebsiella* spp., *Shigella* spp., *Citrobacter freundii*, *Mycoplasma* spp., and *Pseudomonas aeruginosa*

Indications:

- Skin and soft tissue infections
- Urinary tract infections
- Respiratory tract infections
- Ear infections caused by susceptible bacteria
- Wound and post-surgical infection management
- Bacterial infections responsive to Marbofloxacin

Dosage:

2-5 mg/kg b.wt once daily or as recommend
by Veterinarian

***Strong on Infection,
Gentle on Pets***

E.Coli

Pasteurella spp.

Staphylococcus spp.

Proteus spp.

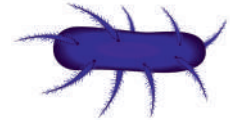

Klebsiella spp.

Shigella spp.

Citrobacter
freundii

Mycoplasma spp.

High bioavailability due to excellent oral absorption

Deeper tissue penetration due to highly lipophilic nature of API

Once-daily dosing improves compliance

Presentation:

Strip of 6 Tablets | Box of 10 Strips

Multiple Bacterial Targets... One Powerful Outcome...

ENROXCELTM

Enrofloxacin Tablets 50 & 150 mg

Indications:

- Skin and soft tissue infections
- Wound infections
- Urinary and reproductive tract infections
- Respiratory tract infections
- Ear infections
- Peritonitis

Dosage:

5-10 mg/kg b.wt single dose or equally divided dosages 12 hrs apart or as directed by Veterinarian

Presentation:

Strip of 10 Tablets
Box of 10 Strips

Double the power... Single the solution...

DUOFIGHT-ACTM

Amoxicillin and Potassium Clavulanate Tablets 250 & 500 mg

- » Broad spectrum combination, effective against beta-lactamase producing bacteria
- » Clavulanate protects amoxicillin from inactivation
- » Effective for resistant and mixed infections

Indications:

- Skin and soft tissue infections
- Postoperative care
- Periodontal and bone infections
- Urinary tract infections
- Enteritis
- Wound management

Dosage:

12.5 mg/kg b.wt twice daily or
as directed by Veterinarian

Presentation:

Strip of 10 Tablets
Box of 10 Strips

Most Preferred Combination

Strengthening the Heart... Extending the Life...

PIMOXCELTM

Pimobendan Chewable Tablets 2.5 & 5.0 mg

Mechanism of actions:

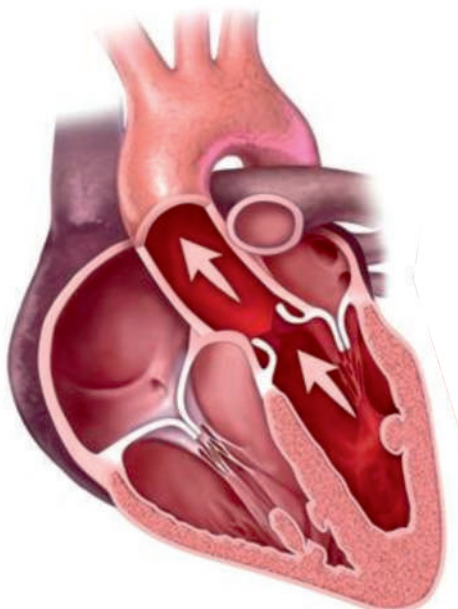

- » Increases calcium sensitivity of cardiac muscle → stronger myocardial contraction
- » Inhibits PDE-III → ↑ cAMP levels
- » Causes arterial and venous vasodilation → ↓ preload & afterload
- » Overall inodilator effect → improved cardiac output with reduced cardiac workload

Indications:

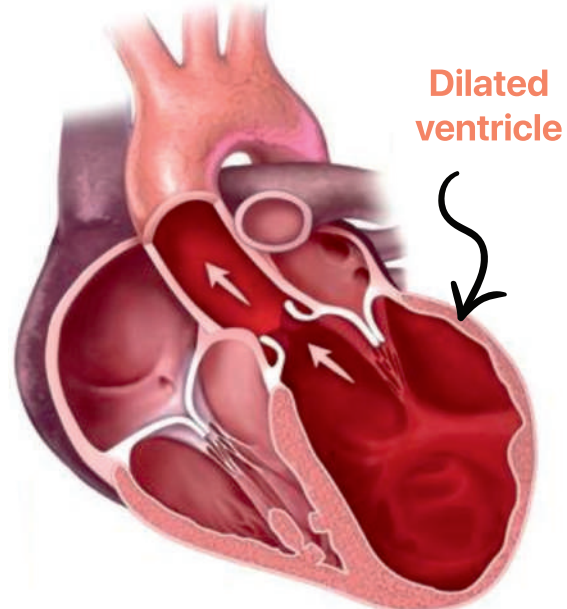

- Congestive heart failure in dogs due to clinical myxomatous mitral valve disease (MMVD) or dilated cardiomyopathy (DCM)
- Increase myocardial contractility and causes vasodilation
- Delays progression of preclinical heart disease
- Reduces clinical signs like cough, fatigue and dyspnea

Normal Heart

Dilated Cardiomyopathy

Myxomatous Mitral Valve Disease (MMVD) Progress in Dogs

Stage	Description	Treatment
A	Predisposed Dog Breed No clinical signs	Screening suggested
B1	Heart Disease Evidence No clinical signs	Monitoring needed
B2	Heart Disease Damage No clinical signs	Pimoxcel Tablets
C*	Congestive Heart Failure Clinical signs	Pimoxcel Tablets
D*	Advanced Congestive Heart Failure Clinical signs	Pimoxcel Tablets

*** Additional therapies may be recommended in Stages C and D**

Dosage:

0.5 mg/kg body weight, using a suitable combination of whole or half tablets.

Presentation:

Each Box Contains
3 X 10 Chewable Tablets

An Ultimate Solution for Liver Care...

SAMEXCELTM

Each 10 ml contains: Silybin (A+B) 20 mg, S-Adenosyl Methionine 300 mg, Ursodiol (Bile Acid) 300 mg, L-Carnitine 10 mg, BCAA's blend (2:1:1) 598 mg & Zinc Gluconate 50 mg

- » Supports glycogen synthesis and provides extra energy to the liver in chronic conditions
- » Enhances bile flow and helps to resolve gallbladder stones
- » Beneficial in the management of pancreatitis

Indications:

- Management of Primary Biliary Cirrhosis (PBC)
- Supportive therapy in Chronic Hepatitis
- Effective in Non-Alcoholic Fatty Liver Disease (NAFLD)
- Promotes hepatocellular repair and regeneration
- Enhances bile-acid-mediated choleresis, improving lipid digestion

SEMEXCEL supports liver health, aids detoxification, boost energy and helps manage liver disorders

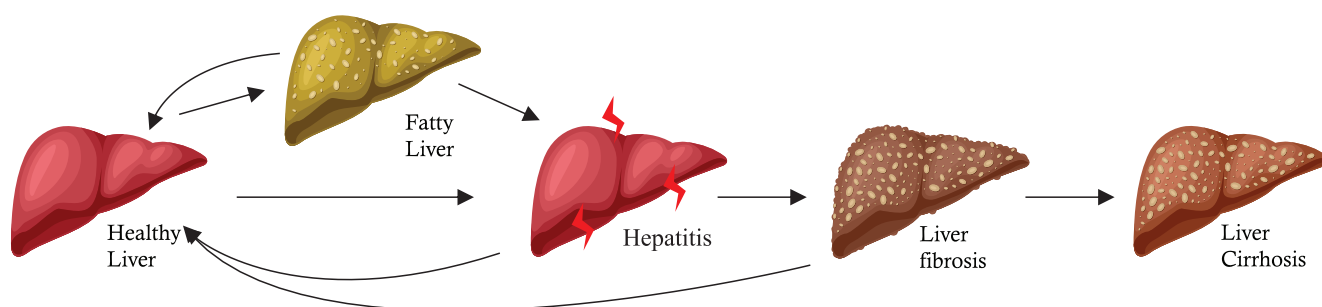

Dosage:

0-5 kg	:	2.5 ml per day
5-15 kg	:	5.0 ml per day
15-25 kg	:	10 ml per day
25-40 kg	:	12.5 ml per day
40-50 kg	:	15 ml per day
50 & above	:	20 ml per day

Or as directed by Veterinarian

Silybin (A+B)	<ul style="list-style-type: none"> • Scavenges free radicals and stabilizes hepatocyte membranes • Stimulates protein synthesis, promoting liver cell repair and regeneration
S-Adenosyl Methionine	<ul style="list-style-type: none"> • Methyl donor: Supports cell membrane integrity and liver function • Glutathione precursor: Protects hepatocytes from oxidative damage
Ursodiol (Bile Acid)	<ul style="list-style-type: none"> • Increases bile flow and improves bile acid-mediated fat digestion • Replaces toxic bile acids, protecting hepatocytes and bile ducts
L-Carnitine	<ul style="list-style-type: none"> • Shuttles long-chain fatty acids into mitochondria for β-oxidation and energy production • Reduces hepatic fat accumulation and oxidative stress
BCAA's blend (2:1:1)	<ul style="list-style-type: none"> • Activates mTOR pathway to support protein synthesis & reduce muscle wasting • Enhances ammonia metabolism, helping reduce hepatic encephalopathy risk
Zinc Gluconate	<ul style="list-style-type: none"> • Supports numerous metabolic and antioxidant enzymes • Aids ammonia detoxification and immune function in liver disease

Presentation: 100ml

Let the Liver Live a Long Life with...

URSODIOXTM

Ursodeoxycholic Acid Tablets IP 300 mg

- » Enhances impaired biliary secretion and bile flow
- » Decreases gallstone formation and recurrence
- » Lowers serum fibrosis markers in NASH
- » Reduce inflammation and cell damage

Indications:

- Chronic hepatitis
- Acute hepatic failure
- Cholestasis and cholecystitis
- Hepatic lipidosis
- Gallstones/sludged bile
- Support in liver disease

Dosage:

15 mg/kg once daily or as directed by Veterinarian

Presentation:

Strip of 10 Tablets
Box of 10 Strips

Complete Appetite and Vitality Tonic...

BUCLITONE™

Each 5 ml contains: Buclizine HCl 12 mg, Vitamin B1 0.3 mg, Silymarin 35 mg, Vitamin B6 0.04 mg, Vitamin B12 0.06 mg & Tricholine Citrate 50 mg

Buclizine Hcl	Antihistamine: Stimulates appetite and prevents nausea & vomiting
Silymarin	Antioxidant & hepatoprotectant: Supports liver health and regeneration
Tricholine Citrate	Bile acid binder: Aids fat metabolism, supports liver function and digestion
Vitamins B1, B6, B12	Supports energy production, nerve function, red blood cell formation and metabolism

Key Benefits:

- Supports treatment of gastritis caused by infections
- Controls intestinal spasms and colic
- Enhances health and vitality in weak or debilitated dogs
- Promotes growth in underweight dogs
- Aids in managing anorexia and poor appetite
- Improves tolerance to sudden dietary changes

Dosage:

0-5 kg	: 5 ml two to three times a day
5-10 kg	: 10 ml two to three times a day
10-20 kg	: 15 ml two to three times a day
> 20 kg	: 20 ml two to three times a day

Presentation: 200 ml

For Xcelerated Gut Recovery ...

XCELGUT™

Kaolin 1 g, Pectin 50 mg & Enterococcus Faecium 0.6 Billion CFU

Absorb · Protect · Restore

KAOLIN:

Absorb water, toxins and bacteria, contributing to firmer stools

PECTIN:

Helps decrease the pH in the intestine and provides a soothing, protective coating to the stomach and intestinal lining

ENTEROCOCCUS FACEIUM:

Increase the amount of good bacteria in the gut and relieve constipation

Indications:

- Relief from diarrhoea and irregular stool consistency
- Supports recovery from digestive upset and mild gastrointestinal disturbances
- Helps restore and maintain healthy gut microbiota balance and pH

Dosage:

Dogs:

One chewable tablet per 9 kg b.wt three times a day

Cats, kitten & Puppies:

One half to one chewable tablet three times a day

Presentation: Pack of 10 Tablets

Deep Clean, Clear Skin, Happy Pet...

BENZDERMTM

Deep Cleansing and Antibacterial Pet Shampoo
Antifungal Relief, Seborrhoea Control, Anti-Itch & Healing

COMPOSITION:

Benzoyl Peroxide	2.5 %
Zinc Oxide	0.25 %
Micronised Sulphur	2.0 %
Salicylic Acid	0.1 %
Base	q.s.

Indications:

Itching, Dermatological infections, Skin irritation,
Dandruff, Bacterial and Fungal infections

Presentation: 200 ml
